

During one of my telepathic exchanges of communication with my spirit guide, my grandmother in Heaven, I asked her: “How do we create PEACE ON EARTH Granny? How do we create everyone, everywhere to feel LOVED?” As I cleared my mind from the clutter of negativity absorbing our day-to-day lives, I listened closely to her response... for a whisper of hope to spread here on Earth. She told me to, “UNITE THE WORLD THROUGH LOVE DEAR!”

I asked, “How do I attempt to do this Granny?” She replied, “Create a CHAIN OF LOVE DEAR!” So that is where my journey began...

I never gave up on my big dream of uniting the world through LOVE for one reason: I knew through my inner knowing that my life had a purpose and when I asked my own spirit, "What is my PURPOSE for taking my first breath in this linear physical form in this lifetime?" I received a telepathic message, which was: "Your life was designed to teach the world what LOVE IS! But first dear you must understand it for yourself!" So, this is when and where my education began. From there my intention to teach the world of what love is became my life's purpose.

This book is a collaboration of hearts blended, from near and far, through friends and familiar strangers. The intention is to spread LOVE through the ripples in the pond of life by building an energy bridge, connecting open hearts from around the world. Sharing messages responding to one prompted question, being: LOVE IS? Through this request LOVE spread far and wide, as messages were received and compiled for you to read. These exchanges of energy filled the pages with LOVE, through the flow of heartwarming sentiments received from very open hearted souls, across many states and throughout many distant countries; all blended together inside one cover to unite the world through all of what LOVE IS!

The vision, for this book is to touch one heart at a time by connecting through energy, frequency, and vibration. I am hopeful to create a chain reaction developed to reach an elevated level of positive energy, designed to transform an unseen force into a tangible visible form of matter, being this book you are now holding the energy of. This intangible emotion called LOVE was transformed into a tangible form.

United Love was manifested and designed to be shared and passed down through present and future generations, with the intention of spreading love to all who hold this energy in their hands.
